Re: Registration requirements for MATH A430

Due to an error during the curriculum process, our MATH A430 course, Concepts of Topology, now requires a prerequisite course (MATH A324) with a co-requisite course (MATH A303). The intended preparation is:

- MATH A324 as prerequisite
- MATH A303 either as a prerequisite or as a co-requisite

We request this change be permitted to increase the number of students eligible to take the class before graduation. Our registrar requests your approval of this change to the catalog before any update is made.
