

## UAA Professional Development Seminar Series

## Greater Prudhoe Bay: Unlocking 40 More!

## Presented by Jenny L. Jemison

In 2017, BPAlaska celebrated the 40<sup>th</sup> anniversary of the start-up of the Prudhoe Bay field. When discovered in 1968, it was the largest onshore oilfield in North America, a distinction it still holds

## field for t

the Alaskan North Sope enters a renaissance of exploration activity, giant discoveries, and new developments, the Prudhoe Bay field is faced with its own future: how can technology be leveraged to unlock the next 40 years of production?

Jenny Jemison is a licensed professional petroleum engineer, with a BS in Civil Engineering from UAA, and a MS in Petroleum Engineering from UAF. As a proud graduate of both schools, she serves as the Campus Recruiting Team Lead at BP, to help promote good BP jobs for good Alaskan students (and financial support for the schools to go with it). She is currently serving as the Chair of the UAA College of Engineering Advisory Board. Jenny is incredibly humbled by the opportunity to serve the people she considers to be her greatest mentors.
